

Bracelet & Watch Size Guide

Select a perfect fitting bracelet or watch every time.

Easy as 1 - 2 - 3

1. Print this page.
2. Cut out the size guide at left.
3. Wrap the size guide around your wrist to measure the size.

Perfectly Comfortable Fit

- If you like a wrist-hugging fit in your bracelets or watch use the actual measurement of your wrist.
- If you like a looser, draping fit, increase the measurement by 1/4 to 1/2 inch, to suit your taste.

Note: Larger link bracelets may fit more snugly than thin bracelets.

Note: The whole numbers representing inches (1, 2, 3, etc.) are labeled. The marks in between the whole numbers represent half inches (for example, 7 1/2"). The smaller dashes represent quarter inches (for example, 7 3/4").
